*Few places are so completely satisfying to the golfer  
as the Homestead with its  
Three 18-Hole Golf Courses*

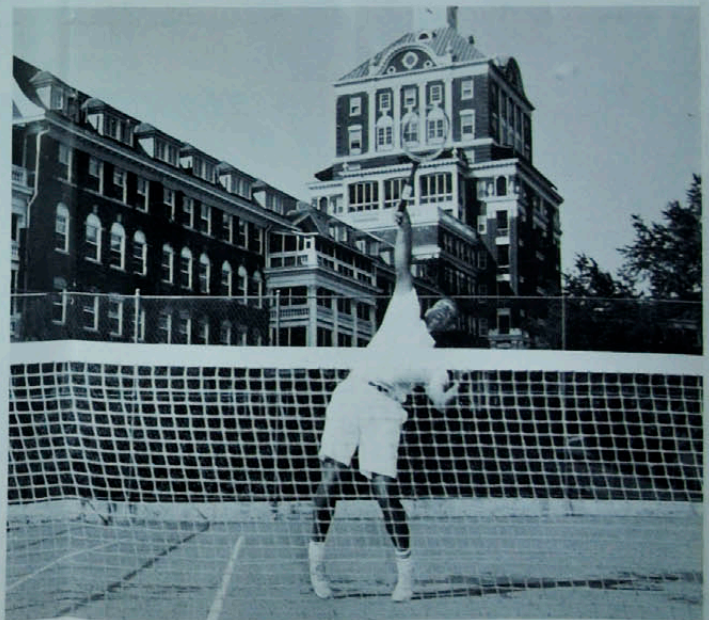

Three 18-hole courses laid out by masters of the game. One, right next to the hotel, is typical of what you would expect at a very good country club. The Cascades Course, a few miles away, is a true championship layout. The new Lower Cascades Course, designed by Robert Trent Jones, makes brilliant use of the valley lands and mountain streams. Golf carts available on all courses.

## *Life at the Homestead*

*includes facilities for virtually every sport,  
as well as the gentler pleasures of life.*

The eight tennis courts are always perfectly maintained. Courts are of En-Tout-Cas and Teniko Royal, with one all-weather surface court.

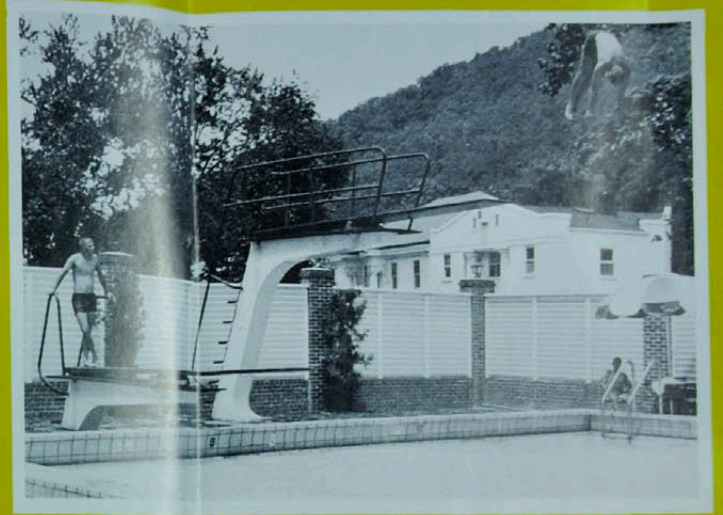

The rushing Cascades stream offers great fly fishing. We keep its three miles well stocked with rainbow trout from a nearby hatchery.

In addition to a regulation-sized indoor pool, there is a fine outdoor pool and a sand "beach" for sunbathing.

Four skeet fields laid out to N.S.S.A. standards, and facilities for 16-yard traps, are just a mile from the hotel proper, on a laurel-covered mountain ridge.

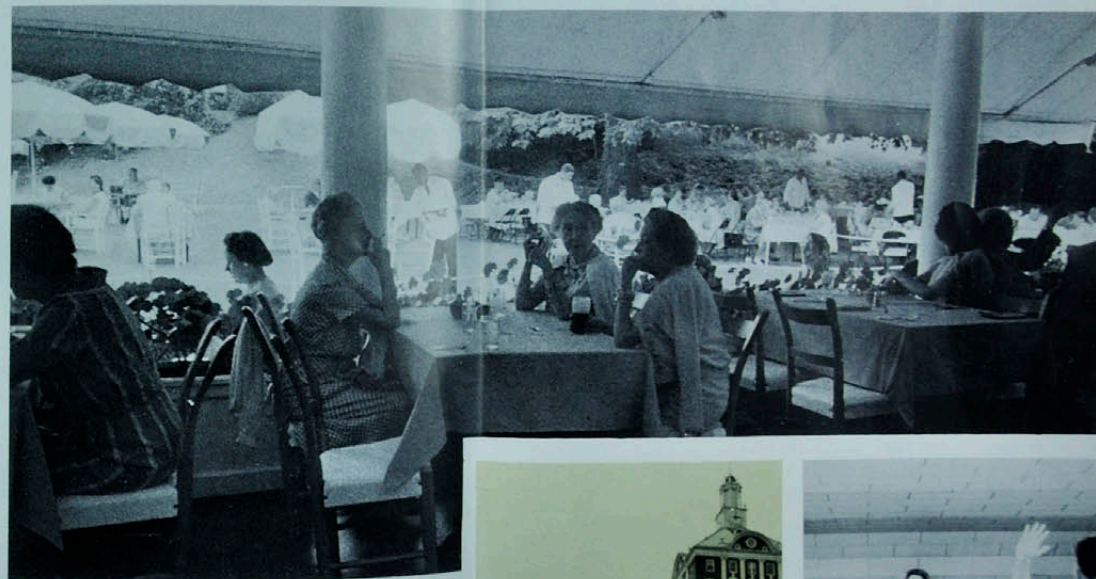

There are literally several hundred miles of riding trails on Homestead land. Our stables have a large string of excellent horses, including side-saddle animals, gentle horses for children, and high-spirited mounts for experienced riders.

Carriages are available for a drive through the beautiful countryside, with a competent Homestead coachman at the reins.

The Homestead's private spa is one of the best equipped hydrotherapeutic centers in the world. Its steam bath and massage facilities are also popular with active sports enthusiasts—especially those who overdo it a bit at the start.

An elaborate buffet is served indoors or on the lawn at the casino for those who prefer an outdoor luncheon. There is outdoor dinner dancing in the formal gardens during mid-summer.

Bowling-on-the-green is as much fun now as it was 300 years ago. Two well-tended greens are located near the Casino.

Eight ten pin bowling alleys with automatic pin-setting equipment are located near the spa.

The Homestead's "great hall" is frequently filled with music. Afternoon tea and coffee is served.

The Homestead has long been famous for the excellence of its food, and its smooth Southern service.

After-dinner coffee, served in the garden room, can be a pleasant prelude to a rubber of bridge, an evening of dancing or a film.

The Homestead's theatre is located within the hotel. Equipped for cinemascope, it shows a first run film every evening.

The Grille, a handsome addition to The Homestead's dining facilities.

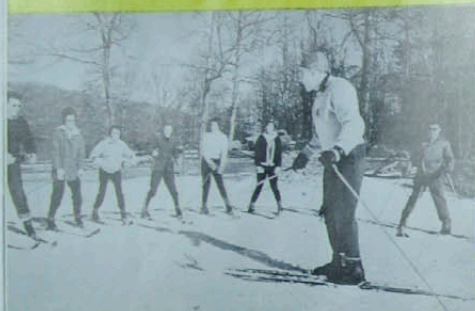

There are many comfortable lounges for games and reading. Games include billiards and pool, to mention just a few.

An olympic-size ice skating rink with artificial refrigeration plays music to skate by and figure skating lessons by our skating professional.

A schedule of beginners' ski instruction classes is handled by The Homestead Skimaster, and individual instruction is available.

The winter sports lodge at the base of the ski run includes snack bar and restaurant, large open fireplace, sunning and observation deck, and pro shops for buying or renting equipment.

## All-winter Skiing and Skating

Man-made snow and artificial ice has turned an occasional delight into a permanent winter attraction at The Homestead. The skiing is superb on a broad slope 3,200 feet long with a 500 foot drop—and on one mile of subsidiary trails. The newest snow-making equipment assures a good skiing surface from about December 15 to March 15 every year.

We believe the 3,200-foot trestle-car lift is the safest and most efficient type of ski lift yet built. There is also a 1,600-foot T-bar lift for your convenience.
