POSTAL INFORMATION—contd.

SINGLE LETTERS BY RAILWAY.—Single letters not exceeding 2 oz. in weight can be sent by railway. The ordinary postage must be paid by stamps, and a fee of 4d. for each letter must be paid to the railway servant to whom it is tendered. Such letters must be taken to a passenger station, and will be sent to destination by first available train. They may be addressed to the Parcel Office at the station of destination "to be called for," or, if so desired, will be sent by special messenger, or posted in the nearest Post Office for delivery by ordinary post.

EXPRESS DELIVERY.—Letters and parcels are accepted at most of the principal offices for express delivery, at a charge of 6d. for every mile or part, which includes cost of public conveyance (omnibus, tramcar, or railway). In addition a weight fee of 3d. is charged on each packet weighing more than 1 lb. The packet must be handed over counter at the Post Office, with fee affixed in stamps to a form provided, and "Express" must be boldly written at top left corner. For express delivery after conveyance by ordinary post, ordinary postage, in addition to a charge of 6d. per mile from delivery office, must be affixed, and the packet should be marked "Express." Letters must also be marked back and front with a broad perpendicular line from top to bottom, and may be posted in a letter box.

NEWSPAPERS.—The rate for registered newspapers is a penny for every copy not exceeding 6 oz., and a further halfpenny for every additional 6 oz.; these must be so folded that the title may easily be read, and must be posted either without a cover or in one open so as to admit of easy removal for examination. Nothing in the nature of a letter may be written on a newspaper or its cover, except a reference to any part of the paper and a request for return in case of non-delivery. No packet may be above 2 lb. in weight, 24 in. long, 12 in. wide, or 12 in. deep.

PRINTED PAPERS POST.—The rate for Printed Papers is 4d. for every 2 oz. Printed packets prepaid 4d. only and intended for despatch on the day of posting must be posted not later than 4.30 p.m. in London or, in the Provinces, not later than such time as may be announced in the P.O. window notices. The minimum rate of postage for all packets sent at the Printed Paper rate and intended for despatch by the night mail, is 1d., if posted after the specified time. The rate is applicable to packets containing printed or written matter not of the nature of a letter (on paper or other substance in

POSTAL INFORMATION—contd.

ordinary use for printing), books or literary publications, sketches, drawings, paintings, maps, plans, &c.; invoices, advice notes, bills of lading, and similar commercial and legal documents, provided that nothing is written on them except entries proper to such documents; proofs or manuscripts for press, and examination papers under similar conditions, and circulars or printed notices. Circulars may be corrected in writing, and in the case of notices of meeting, the place, hour, date, and objects may also be inserted. (The word "printed" is intended to cover only forms produced in numbers by ordinary mechanical means; imitation type-written circulars are included, if in identical terms and posted in numbers of not less than 20, specially handed over the counter at a Post Office, and attention called to their nature.) Such packets may be posted either without a cover, or in one open so as to admit of easy withdrawal for examination, but not such as would be likely to entrap other correspondence. Limit of size, 24 in. long, 12 in. wide or deep. Limit of weight, 2 lb.

STAMPS are issued at following values: 4d., 1d., 1½d., 2d., 2½d., 3d., 4d., 5d., 6d., 9d., 10d., 1s., 2s. 6d., 5s. and 10s.

REGISTRATION & INSURANCE.—The fee for registering an Inland Packet of any kind is 3d. in addition to the postage, and in the event of loss or damage this covers compensation up to 5s. The packet must be enclosed in a strong cover, securely fastened, and marked "Registered"; if containing coin, it must (to gain the benefit of the Post Office guarantee) be enclosed in a special Registered Letter envelope sold at all Post Offices at 5d., 5½d., 6d., or 6½d., each, according to size. A registered packet must be handed to a Post Office official, and a receipt obtained for it. If, contrary to this rule, a packet marked "Registered" is dropped into a letter box, it becomes liable, on delivery, to a fee of 6d., less any amount prepaid in excess of the postage. Letters containing coin, jewellery, or watches, if posted without registration, are liable to a similar fee on delivery. The latest time for posting is usually half-an-hour before the box closes for the mail, but at all provincial head offices, and the chief offices in Edinburgh and Dublin, packets bearing a late fee of 6d., plus registration fee, may be registered till the box closes.

POST CARDS.—The official Post Cards, or private cards embossed with a 1d. stamp by Office of Inland Revenue, may be used for correspondence

POSTAL INFORMATION—contd.

throughout the United Kingdom, and private cards bearing an adhesive 1d. stamp may also be used, providing they are composed of ordinary cardboard, and are not less than 4 in. by 2½ in. or more than 5½ in. by 3½ in. Nothing may be attached except gummed labels (not exceeding 2 in. long and ½ in. wide) bearing the address of the person for whom intended and of the sender, and engravings, photographs, &c., on very thin paper completely adhering to the card; nor may cards be cut, folded, or altered to reduce the size below 4 in. by 2½ in.

LETTER CARDS.—Letter Cards are sold at 2d. each, or 10 for 1s. 6d.

GLASS, Liquids, Semi-Liquids, Greases, and Powders may only be sent by post if specially packed in such a way as to prevent all risk of injury to the Mails or to the officers of the Post Office.

PARCELS for conveyance within the United Kingdom may be posted at the counter (not in the letter box) of any Post Office. The limit of length allowed is 3ft. 6in., and the maximum of length and girth is 6ft., i.e., a Parcel 3ft. 6in. long may measure 2ft. 6in. in girth round the thickest part.

The rates of postage, which must be prepaid, are as follows:—

Not exceeding 2 lb., 6d.
Exceeding 2 lbs. but not 5 lbs., 9d.
Exceeding 5 lbs. but not 8 lb., 1/1
Exceeding 8 lb. but not 11 lb. 1s. 3d.
11 lb. is the limit allowed.

PREPAYMENTS IN MONEY.—At the General Post Office (King Edward Street and Mount Pleasant), London, and at the principal District and Branch Offices in London between 9 a.m. and 3 p.m., as well as at Edinburgh and Dublin and some other large towns between 10 a.m. and 4 p.m., inland postal packets other than newspapers may be prepaid in money, provided that the articles are chargeable with a uniform rate of postage, that the amount is not less than 20s., and that, except in the case of parcels, packets are tied in bundles of 60 (or in the case of bulky packets, in bundles of 10 or multiples of 10), with addresses arranged in the same direction.

SUNDAY DESPATCHES.

The usual night mails are despatched from London on Sundays: there is no general collection of correspondence for these mails on Sunday, but letters, etc., posted at certain offices in special boxes provided for the purpose and prepaid with a late fee of 4d., in addition to the ordinary postage are included in the mails despatched that (Sunday) evening.

TELEGRAPHIC INFORMATION:
INLAND.

The charge for Telegrams written in plain language in any European tongue or in Latin is 1s. for the first 12 words, and 1d. for every additional word (1d. extra on Sundays, Good Fridays, and Christmas Day. In Scotland the extra charge is raised on Sundays only.) The name and

address of receiver are counted, and those of sender also, if transmitted.

The regulations in regard to the transmission of compound or hyphenated words and names, etc., are rather somewhat complicated, but the following may be taken as a general guide:—

WORDS, not of any European language, or of Latin, and unintelligible combinations of words, are charged at the rate of 5 letters to a word.

HYPHENED WORDS (as brother-in-law), charged as one word.

HYPHENED NAMES (as Holland-Jones), each word charged.

COMPOUND WORDS in ordinary use (as greengrocer), charged as one word.

COMPOUND WORDS other than as indicated above, each word charged.

COMPOUND NAMES (as MacNeill), charged as one word.

ST. (as prefix) with name (as St. Pancras), charged as one word.

ABBREVIATED WORDS in ordinary use (as shouldn't), charged as one word.

TOWNS AND VILLAGES in the United Kingdom and Foreign Telegraph Offices consisting of one or more words (as Aix-les-Bains), charged as one word.

TOWN SUB-OFFICES and Branch Offices in United Kingdom consisting of one or more words (as Crouch Hill) each word charged, unless used in addresses together with the names of thoroughfares to denote districts in towns.

The name of a County is charged for if added to the name of a place, unless necessary to distinguish it from another place of the same name. An extra word is charged for when words are underlined or placed within inverted commas or parentheses. Ordinary signs of punctuation are also charged, if required to be transmitted.

The initials of London Postal Districts (as S.E. or N.W.), the letters A.M. and P.M. and the letters H.M.S. in the address of H.M. Ships count as one word for each

group. All other initial letters count as one word each, thus G.E.R. (for Great Eastern Railway) counts as 3 words.

Figures are charged for at the rate of 5 figures to a word. Thus, 27,301 counts as one word, and 463,268 as two words. In fractions the bar, whether horizontal or oblique, counts as a figure, so that while $1\frac{3}{4}$ or $2\frac{3}{4}$ would count as one word, $11\frac{3}{4}$ would count as two words. In groups of figures a dot or a stroke counts as a figure. In ordinal numbers the suffix st, nd, rd, or th, counts as two figures, thus 121st represents one word and 1276th two words. A letter prefixed or affixed to a group of figures counts as a separate word, e.g., 217B or B217 counts as two words. Symbols such as c/o, %, count as one word each.

A telegram should be written on the proper form, which any telegraph office will supply gratis, and the cost must be paid by means of postage stamps (or a form embossed with a 1s. stamp can be purchased.) Books of 20 forms with embossed stamps, interleaved, and with a sheet of carbonic paper, at 20s. 3d. per book, can also be purchased. A receipt for the charges prepaid on a telegram can be obtained for 1d.

Porterage is charged, beyond the limit of free delivery, at the rate of 6d. per mile. The cost of a reply, not exceeding 48 words in length, may be prepaid, and the reply may be sent, from any Telegraph Office at any time within 12 months after the date of the original telegram. A reply form may be used for an original message. Subscribers to a Telephone Exchange may telephone messages to the nearest post office to be forwarded as Telegrams or Express Letters. Head Telegraph Offices are, as a rule, open from 8 a.m. to 7 p.m. on week-days, and from 8.30 a.m. to 10 a.m. on Sundays

CURRENT AND DEPOSIT ACCOUNTS.

The letter of application should also state whether a "Current Account" or a "Deposit Account" is to be opened. The former is the ordinary form of Account in daily use by business men; the latter is generally used for temporary investments, and is only occasionally drawn upon.

As a rule, Bankers make no charge for keeping a Current Account, unless, indeed, the Balance maintained is not sufficient to cover expenses; and even then the charge is very small. On the other hand, no interest is allowed, though an exception to this must be made in the case of some few Banks who credit a small interest on the monthly balance. In the case of a "Deposit Account" amounts paid in are left for a definite/stated period, and can only be withdrawn by giving a stipulated notice. Interest is allowed on such sums of something less than Bank rate.

CHEQUES AND WITHDRAWAL OF MONEY.

Cheques are as already stated of two kinds, payable either to "Bearer" or to "Order." Books containing 25, 50, 100, or 200 are supplied by Bankers to their Customers without charge, except for value of the stamps.

When filling up a cheque, care should be taken to make the wording quite distinct and compact, so as not to admit of the improper insertion of figures or additions of words not intended by the drawer, such as the alteration of 6 into 60, "Eight" into "Eighty," and so on. In case the drawer desires an alteration in a cheque after it is written out, either in the amount, or name, such alteration should be made as clearly as possible and initialed by the drawer. Should a filled-in cheque be lost, the drawer should at once forward to the bank, which it is drawn on, the name of the person to whom payable, date, number and amount, and request them to stop payment. If a blank cheque or a cheque book is lost, the Bank should at once be advised; and it may here be mentioned that cheque books should always be kept under lock and key, so that they may not be tampered with.

A cheque torn in two separate pieces will only be paid by the Banker upon whom it is drawn, after confirmation by the drawer.

CROSSED CHEQUES.

A cheque payable to "Bearer" and not crossed is termed "open" and may be cashed by any person presenting it at the bank on which it is drawn. If crossed thus—

& Co.,

the value can only be obtained by passing it through a Bank account: if thus—

London Joint City & Midland Bank, Limited.

with the name of a special Bank, it will only be paid through that Bank; and if the name of the person who is entitled to receive payment is added, thus—

London Joint City & Midland Bank, Limited, a/c James Freeman,

payment can be obtained only through that particular Bank and by that particular person. If a cheque is crossed thus—

& Co.,
not negotiable.

it will only be paid when presented through a Banker, and a person who takes a cheque so crossed does not receive and cannot give a better title to the cheque than that which the person from whom he received it had.

"Order" cheques may be crossed in the same way as "Bearer" cheques with the same results. Endorsed and paid "Order" cheques are legal evidence of payment, and it is therefore advisable to keep them.

ENDORISING CHEQUES.

Cheques payable to "Bearer" require no endorsement at the back. But if the word "Bearer" be crossed through, or if the word "Order" be inserted in the place of "Bearer," the person in whose favour it is drawn must endorse it, as hereafter directed for "Order" cheques, before it can be cashed.

A cheque payable to "Order" must, before presentation for payment, be endorsed (or signed on the back) by the person in whose favour it is drawn, and the endorsement must agree precisely with the name on the face of the cheque, even though the name there written is incorrect. A cheque payable to the order of James Freeman, for instance, must be endorsed James Freeman, even though the right name is John Freeman, or should be returned to drawer for correction. If it is payable to Mr., Mrs., or Miss J. Freeman, it will still be correct to endorse it J. Freeman.

The following are proper endorsements in exceptional cases:—

A cheque payable to Dr. H. T. Smith should be endorsed "H. T. Smith, M.D."

One to Captain Smith should be endorsed "H. T. Smith, Capt."

A cheque to Messrs. Smith's may be endorsed either "Smith's," "Smith and Co.," "Smith & Son," "Smith Bros.," "H. & T. Smith," or similar.

A cheque to Mrs. Henry Smith should be endorsed with Christian and surname, and below it "wife of Henry Smith."

A cheque to Miss Smith (now Mrs. Jones) should be endorsed with Christian and surname thus, "H. T. Jones, nee Smith."

A cheque may be endorsed by a qualified clerk thus, "per pro, H. T. Smith, Walter Long."

Cheques payable to "Hund company," "Smith, Son & Co., Ltd.," should be endorsed with the name of the company, and a qualified official should add his signature thus, "Smith, Son & Co. Ltd., Walter Long, Secretary."

A cheque drawn to the "Execors of H. T. Smith, deceased," should be endorsed by at least one of the executors, "For self and co-execors, of H. T. Smith, deceased, Walter Long, an executor."

A cheque to the "Trustees of H. T. Smith" must be endorsed by all the Trustees, thus—

John Ward
Henry Smith
Robert Hill
Trustees of H. T. Smith.

THE CHURCH OF ENGLAND WAIFS AND STRAYS SOCIETY

Patrons: T. M. THE KING AND QUEEN

Over 26,800 CHILDREN received.
Nearly 4,400 now in the Homes.

HELP GREATLY NEEDED
for this

URGENT NATIONAL WORK.

Further information gladly supplied by the Rev. W. Fowell Swann, M.A., Secretary, Old Town Hall, Kennington Road, London, S.E.1

Founded 1868.

The Hospital offers free treatment to the necessitous poor, but encourages all who are able, to pay what they can afford, and thus promotes providence and minimises abuses.

The attendance of Out-Patients average 40,000 per annum. Beds, 85.

Supported by Voluntary Contributions.

THE ROYAL MERCHANT SEAMEN'S ORPHANAGE,

BEAR WOOD, WOKINGHAM (Formerly of Snaresbrook).

Established 1827 for the Board, Maintenance, and Education of the Orphan Children of British Sailors (officers and men) from all parts of the world. Three thousand seven hundred and twenty-six have been received, and three hundred and eighteen children are at present in the Schools, which are maintained entirely by voluntary subscriptions. Help is urgently needed. There is probably no class more deserving of our kindness and sympathy than sailors, and the loss of life by shipwreck, privation and disease brings the greatest distress upon thousands of their orphans annually. A liability of £40,000 has already been incurred in the maintenance and education of orphans whose fathers have lost their lives by act of the enemy, and this liability, it is believed, will reach £100,000 before the claims upon the Institution under this particular head have been dealt with. The fullest information may be obtained on application to

System Calendar

THE MOST USEFUL
DESK APPLIANCE
EVER DEvised
FOR THE
BUSINESS
MAN.

A CALENDAR, DIARY PAD & TICKLER FILE IN ONE.

EVERY business man needs a calendar—he also needs a diary of some kind to record important happenings and future appointments—he also very often keeps a desk “tickler” set so that business and appointments arranged some time ahead are brought to light automatically on the proper day. The desk calendar takes the place of all these, and has the added advantage that it is always before the user's eyes. The sheets are not torn off, so can be retained as a permanent record. Practically the whole side of the sheet is available as writing space, which is a great improvement on the ordinary tear off blocks, which have not only limited writing space, but have to be specially filed if required for future reference. No business man's desk is complete without this ingenious device.

A smaller edition is published under the title of
The BUSINESS DESK CALENDAR.

As a large number of these Diaries circulate abroad it may be well to point out that the Astronomical Data, such as phases of the moon, etc., are given in Greenwich time. The times of the Sun's Risings and Settings are only applicable for the same North Latitude as Greenwich (London). For other places in England the difference in Longitude should be applied.

During the operation of the Daylight Saving Bill the times given for Astronomical and other Notes throughout the Diary must be altered accordingly.

POLIVIT economises Time, Labour & Expense.

POLIVIT cleans Spoons, Forks, Fish-Knives, Tureens, Cruets, Entree-Dishes & all Silver, Electro-Plate and Jewellery.

POLIVIT is no Experiment—it is a proved success.

Patented and on the market since 1908.

CLEANING and polishing household plate with powders and pastes employs much unnecessary labour and time. By using POLIVIT, scores of articles of Silver and Electro-plate are polished in a few minutes. No labour is entailed, as POLIVIT does all the work.

POLIVIT cleans thoroughly—not a niche or crevice escapes the cleaning process, and no deposit is left behind. There is no wear on the surface of the articles, no discoloration caused. All tarnish is attracted away.

POLIVIT is a metalloid plate, warranted non-injurious. It is placed along with the articles to be cleaned, in a basin containing hot water and a little household soda. After a few minutes' immersion, take the articles out and dry with a cloth—they will then be sparkling bright. One plate cleans thousands of articles.

**A NECESSITY
 OF TO-DAY**

to increase the
EFFICIENCY of your staff
 and staff.

To maintain Britain as one of the most important industries of the world, trade must be handled by the best men with the best equipment. The Dictograph detail must be distributed amongst subordinates, and kept under supervision and control.

THE DICTOGRAPH

CONROLLING THE DICTOGRAPH MUST BE FREE TO THINK. The telephone plays a part in industry on a plane to which the Dictograph service should be used for outside calls only. YOUR "INSIDE" CALLS SHOULD BE BY DICTOGRAPH—which system gives the "head" special facilities, and yet gives all workers full and necessary service.

THESE ARE DICTOGRAPH SPECIAL FEATURES.

1.—General inter-communication. 2.—Loud speaking. 3.—Speech to several simultaneously. 4.—Special Dictograph calls. 5.—Priority of call to "head." 6.—No handling of records. 7.—No "ringing" of telephone. 8.—Retention of a key and "you are through" as against four movements of other "keys." 9.—Its cost is fully warranted on the service, as verified by its adoption by the following Companies:
